Issue: # 110

Date: 10/27/2011

Version: PACP Data Entry V4.4 and V6.0

## ***Issue***

What are valid length and width entries for PACP and LACP Conditions in the Inch 1 and Inch 2 fields?

## ***Conclusion***

For clarification of the PACP/LACP Data Dictionary 6.0.3, valid length and width entries in Inch 1 and Inch 2 are as follows:

- Imperial (in inches)
  - PACP Valid entries are  $\leq$  to 99.999  
(Up to 3 decimal places)
  - LACP Valid entries are  $\leq$  to 99.999  
(Up to 3 decimal places)
- Metric (in millimeters)
  - PACP Valid entries are  $\leq$  to 9999  
(No decimal places)
  - LACP Valid entries are  $\leq$  to 9999  
(No decimal places)
